### JOAQUIN MORAGA INTERMEDIATE SCHOOL STUDENT CODE OF CONDUCT FORM

### Responsibilities of the Student Athlete:

- Accept the responsibility and privilege of representing the school and community.
- 2. Make a commitment to the team, understanding the time commitment required.
- 3. Cooperate with the coach and fellow athletes in trying to promote sportsmanship.
- 4. Bring a positive and respectful attitude towards all players and coaches during all team related activities.
- 5. Respect the judgment and strategy of the coach even if it conflicts with your athletic opinions.
- 6. Treat opponents with the respect that is due them as guests and fellow competitors.
- 7. Exercise self-control at all times including while in the classroom.
- 8. Earn a minimum grade point average of 2.0 and no unsatisfactory citizenship grades
- 9. Athletes are expected to attend all practices/games. The following attendance requirements will be enforced:
  - One (1) unexcused absence: Athlete will not start in the next game.
  - Two (2) unexcused absences: Athlete will not play in the next game but will be expected to attend the game, in uniform and sit on the bench.
  - Three (3) unexcused absences: Athlete will be removed from the team.
  - \*\* An excused absence is timely notification to the coach, before a practice or game.

I have read, understand, and agree to the above.

### Parent/Guardian and Pupil Sudden Cardiac Arrest Warning Signs and Symptoms Information and Acknowledgment Form

On July 1, 2017, Assembly Bill 1639, known as the Eric Paredes Sudden Cardiac Arrest (SCA) Prevention Act went into effect. This requires the pupil and their parent or guardian to read, sign, and return an SCA form of acknowledgement before the pupil participates in any athletic activity. Districts may use this form, a form located on the California Interscholastic Association (CIF) website, or design their own form. An SCA acknowledgment form must be signed and returned to the school site each school year.

#### What Is SCA?

SCA occurs suddenly and often without warning. It is triggered by an electrical malfunction in the heart that causes an irregular heartbeat. With the heart's pumping action disrupted, the heart cannot pump blood to the brain, lungs, and other organs. Seconds later, a person loses consciousness and has no pulse. Death occurs within minutes if the victim does not receive treatment.

#### Who Is at Risk for SCA?

Thousands of sudden cardiac arrests occur among youth each year, as it contributes to the #2 medical cause of death of youth under the age of 25 and is the #1 cause of death of student athletes during exercise. While a heart condition may have no warning signs, studies show that many young people do have warning signs or symptoms but neglect to tell an adult. This may be because they are embarrassed, they do not want to jeopardize their playing time, they mistakenly think that they are out of shape and need to train harder, or they simply ignore the symptoms, hoping the signs will go away.

#### **Possible Warning Signs and Risk Factors**

- Fainting or seizure, especially during or right after exercise
- Fainting repeatedly or with excitement or startle
- Excessive shortness of breath during exercise
- Racing or fluttering heart palpitations or irregular heartbeat
- Repeated dizziness or lightheadedness
- Chest pain or discomfort with exercise
- Excessive, unexpected fatigue during or after exercise
- Family history of sudden death or heart disease under age 50
- Use of high-caffeine supplements, energy drinks, diet pills, and drugs

### **Removal from Activity**

A pupil who faints during or following participation in an athletic activity must be removed from play and may not return to play until they are evaluated and cleared by a physician and surgeon, nurse practitioner or physician's assistant. I have reviewed and understand the symptoms, warning signs, and risk factors associated with SCA.
